

TETIANA YEIKOVYCH

UI/UX Designer

I am a highly motivated individual with a strong passion for UX UI design and a desire to build a career in this field. Specialize in UI/UX for web and mobile applications. I possess a strong understanding of design principles and user-centered design. I have experience creating wireframes, prototypes, and visual designs for web and mobile applications. I have a keen eye for detail and am committed to creating visually appealing designs that are also highly functional and user-friendly

PROJECT EXPERIENCE

Homesharing desktop version

Service for searching and guesting all over the world. We had to create a web service that will help organize a budget stay in another country. Our idea is to develop a web service interface for "change of scenery" - work and rest in a new place.

HealthyDish App

The main idea was to, create an application that helps:

To find an interesting café or restaurant. To choose a place that suits your nutritional needs or culinary preferences. To book a table in this place and reserve it at a convenient date and time for the visitor.
